HUNT GOES ON FOR PLANE SURVIVORS

Eisenhower Golfs; Stevenson Maps Tour; Even Reds Getting Into Act

By THE ASSOCIATED PRESS
President Eisenhower bided his time on the green fairways of Pebble Beach, Calif., today while his Democratic opponent in the Nov. 6 presidential election, Adlai Stevenson, prepared for a quick campaign start.
Stevenson planned a late morning meeting at his Libertyville, Ill., farm home with running-mate Estes Kefauver for electioneering mapwork prior to a whirlwind, cross-country handshaking trip.
The two candidates will take off at 8 a.m. Monday from Chicago. Santa Fe, N.M., will be the first stop. Other parleys will be held at Vancouver, Wash.; Sioux City, Iowa; Knoxville, Tenn., and Chicago. Stevenson officially will launch his campaign with a Labor Day address at Detroit Sept. 3.
Eisenhower played 18 holes of golf Friday at the exclusive Cypress Point course at Monterey Peninsula—the first time he had gone that far since his surgery on June 9.
The President planned to continue his relaxation at the Pacific Coast beauty spot following his address to the Republican National Convention until probably Monday. The GOP campaign will not get really rolling until mid-September.
Meanwhile, Vice President Nixon, Eisenhower's running mate for a second time and probable work horse of the coming campaign, was tugging at the reins to get back to Washington for campaign preparations.
Nixon, visiting his ailing father at Whittier, Calif., said he will fly to Washington Sunday night if his parent, at one point expected to die, continues to improve.
"I am very anxious to go to Washington for conferences Monday," said Nixon, "because we are aware the other side is starting very early and it is necessary for us to make immediate campaign plans."
Republican delegates streaming home from their San Francisco convention which ended Thursday were warned by their national chairman, Leonard W. Hall, that "our only enemy might be complacency."
"I am optimistic but not overconfident," Hall told newsmen. "And I don't want the workers to be overconfident."
He predicted the GOP could carry as many states as it did in 1952 when only nine Southern and border states went Democratic.
Hall said he thinks the 1956 battle (Please Turn to Page Eight)

Seek Accomplice In Kidnaping Case

WEINBERGER KIDNAPER CAUGHT — clad in greasy overalls, Angelo John La Marca (center), 31-year-old, father of two children, is brought into the Mineola, N. Y., police station after admitting the July 4th kidnaping of little Peter Weinberger (inset). FBI agents and police tracked La Marca through his handwriting on the ransom notes he left behind. He confessed abandoning the baby soon after seizing it from the Weinberger home in Westbury, N. Y.

MINEOLA, N. Y. — Police sought to learn today whether a friend helped the swarthy kidnaper who left little Peter Weinberger to die in a roadside tangle of honeysuckle vines.
Authorities said Angelo John LaMarca, 31, mechanic, told them he took the baby to Brooklyn and left him overnight with a friend only hours after the Fourth of July kidnaping.
"The identity of the friend in Brooklyn mentioned by LaMarca is unknown and the whereabouts unknown," a police official said. "He has repeatedly refused to identify the person or the place."
LaMarca's wife told newsmen: "Someone else is involved but he won't say who."
LaMarca, a bushy-haired man with two children of his own, was held without bail for a further hearing next Friday on a kidnaping charge. He made no plea.
Authorities said a murder count probably will be added to the kidnaping indictment sought from the grand jury.
Meanwhile, a policeman was locked in with the dejected prisoner to guard against any suicide attempt.
LaMarca was charged with kidnaping the 32-day-old infant from the patio of Mr. and Mrs. Morris Weinberger's ranch home in Westbury, N. Y.
LaMarca was quoted by police as saying he abandoned the child the next day after he panicked in (Please Turn to Page Eight)

Meanderings

By Wash Fayette
Charles F. Daugherty, his son, Clayton and wife, of Champaign, Ill., distant relatives of the Daugherty family here, were in the city looking up family history, Friday and Saturday.
I had the pleasure of meeting them and giving them some information, as well as showing them about the Court House. Of course I proudly showed them the beautiful murals in the Court House, said to be the handiwork of Archibald M. Willard who painted the historic "Spirit of '76".
I was intrigued by a bit of information dealing with Thomas Jefferson Daugherty, father of Charles, and grandfather of Clayton, in connection with his enlistment in the Civil War.
The elder Daugherty, a farm lad of 18, residing north of Bloomington, rode horseback into Washington C. H., enlisted, turned his horse loose and let it return home of its own accord.
He was in Co. B., Fourth Ohio Heavy Artillery, and saw much service in the Civil War.

Street Narrows, House in Trouble

ST. LOUIS — Joseph Zarro is moving, house and all, but he's having trouble.
Professional house movers completed all but two blocks of the 56-mile trip Friday when the street narrowed. Some curbstone mail boxes were removed. The rooftop pulled down telephone wires. Neighbors complained.
The St. Louis County police department came along. The mover decided to wait until today to finish the job but police thought otherwise and the mover rolled the house down a dead-end street.

Report Egypt Ready To Offer Suez Guarantees

LONDON — Egypt was reported prepared today to offer maritime powers treaty guarantees of unimpeded shipping through the Suez Canal.
Diplomatic sources in Cairo said President Gamal Abdel Nasser would offer the guarantees—singly or collectively to nations using the canal—as a counterproposal to the demand of 18 nations for internationalization of the Suez.
These sources said the offer probably would be outlined in Nasser's reply to the five-nation Suez Canal Committee.
The committee was delegated to tell the Egyptian president the majority of nations at this week's London Suez Conference want an international board to take over management of the vital waterway.
There still was no official indication in Cairo on whether Nasser would agree to receive the committee.
THE CAIRO diplomatic sources predicted Nasser's reply would flatly reject the proposal from 18 of the 22 nations at the just concluded London conference for internationalization of the Suez. But his counterproposal, they said, would leave the door open for negotiation.

Fund Advanced For Old Age Pension Use

COLUMBUS — The state controlling board has acted to prevent a 20 per cent cut in September old age pensions to nearly 98,000 Ohioans receiving pension benefits.
The board authorized transfer of more than two million dollars appropriated for pensions in the last quarter of this fiscal year for payments in the first quarter.
Rep. J. Frank McClure (R-Ashland), House finance committee chairman, said the transfer was necessary to assure full pension payments in the first quarter of the bookkeeping year which started July 1.
He said the additional money also would permit payment for health and nursing care for pensioners costing about \$500,000 a month.
The additional cost for such care followed removal last July 1 of the \$200-a-year ceiling on those payments.
McClure said the fund transfer would create an old age pension appropriation deficit with which the next Legislature, meeting in January, will have to deal.
McClure said legislation removing the health-care ceiling "should never have been passed without going through the finance committee."
He said that the legislation should not have been left up to members of the welfare committee because "money means nothing to them."
Although Ohio will have a deficit in old age pension funds for the fiscal year ending next June 30, McClure said federal money received after Oct. 1 will cut the shortage. The Legislature will have to deal with the remaining deficit, he added.

Helicopter in First Flight Across Nation

WASHINGTON — The Army has flown a helicopter on the first transcontinental, nonstop trip in an attempt to prove the practicability of long-range "copter flight."
A weary five-man crew landed a twin-rotor H21 at the Pentagon's heliport late Friday afternoon, ending a 31-hour and 40-minute flight from San Diego, Calif.
Four aerial refuelings were used to enable the normally short-ranged machine to make the 2,610 mile trip across the United States.
When daylight and weather permitted, the helicopter "drank" fuel through a hose from a small tanker plane which accompanied it. Twice the H21 hovered near the ground while gas was pumped up through a hose.
The Army said the trip proved that helicopters can be flown long distances to reach battle zones in wartime. It also seemed to prove that man's ears can stand a day and a half of the thundering din of an engine and whirling rotors, with only a few winks of sleep.
Capt. James E. Bowman, Ambury, Ind., first pilot, said the crew ate "in-flight lunches," another name for cold box lunches.

Woman Suspect Held in Bank Loss of Half Million Dollars

CHICAGO — A 49-year-old woman bookkeeping supervisor at a Chicago bank where she had been employed 33 years was held in jail today in connection with the disappearance of nearly a half million dollars of the bank's funds.
But, federal officials said, Miss Bessie E. Roth, apparently had received none of the \$467,228 which they said had disappeared from the Lawndale National Bank over a three-year period.
Asst. U. S. Atty. Frank J. McGarr said Miss Roth was responsible for the loss because she had, starting three years ago, allowed known customers to cash postdated "holdout" checks, McGarr said, explaining these were checks the customers did not have money in their accounts to cover.
"She didn't get a cent of the money—she apparently just did favors for others," McGarr said. "She was just a prim lady with an altruistic heart."
McGarr said Miss Roth would approve the postdated and holdout checks for payment and then

Navy Officials Say Search on 'At Full Force'

Body Of Ohioan Is Only One Recovered Since Aerial Battle
TAIPEI, Formosa — U. S. Vice Adm. Stuart Ingersoll, commander of the 7th Fleet, said the search had been terminated for survivors of a Navy Patrol plane downed off the Red China coast.
But in Washington Pentagon officials said the search is continuing "at full force."
The Washington announcement came from the office of Adm. Arleigh A. Burke, chief of naval operations.
Naval officials at the Pentagon said: "You can say the search has not been discontinued and as a matter of fact will continue in full force. The same number of ships and planes is participating in the hunt. When the search is abandoned it will be announced here."
Ingersoll's announcement here said the hunt was called off at 11:25 a. m. (9:25 p. m. EST) Friday after "all possibility of locating survivors was exhausted."
Ingersoll said ships and aircraft which took part in the search were ordered to return to their normal operating schedules.
THE NAVY Department in Washington announced that the body of one of 16 crewmen aboard the four-engine P4M Mercator was recovered Friday in "international waters" amid the wreckage of the plane about 100 miles southeast of Shanghai.
He was identified as Technician 1. C. Albert P. Martin of Delta, Ohio.
The last radio message from the patrol craft said it was under aerial attack off the China coast.
Red China protested that the search conducted by the U. S. 7th Fleet violated Chinese territory.
Peiping radio accused the Americans of an "act of military provocation."

Bachelor Governor Comes Visiting

OBERLIN, Ohio — Oberlin College's president, his wife and their pretty 28-year-old daughter are hosts here this weekend to Gov. Robert B. Meyner of New Jersey.
Oberlin President William E. Stevenson described Meyner's trip as just a visit to see the family.
Helen Stevenson flew to Cleveland from New York Friday, not far behind a flight made by Meyner.
Meyner, 48, sometimes described as one of the most eligible bachelors in the nation, made the keynote speech at Oberlin's mock Democratic convention last May.
Miss Stevenson, a cousin of Democratic presidential nominee Adlai Stevenson, reportedly works for the Stevenson - for - President Committee in New York.

Driver Pinned beneath Auto After Losing Control on Curve

OUT OF CONTROL, this car left a curve on Route 70 near the Madison County line Friday evening and killed its driver, Mrs. Ada Whitley Sonner, of near Greenfield. Mrs. Sonner was thrown from the right hand door of the car as it left the curve and landed beneath it after it rolled over. (Record-Herald photo)

A 60-year-old Greenfield woman became Fayette County's first traffic fatality in more than five months when the car she was driving left a curve on Route 70, near the Madison County line, about 7:45 p. m. Friday.
Pronounced dead by Dr. Hugh Payton, acting coroner, was Mrs. Ada Whitley Sonner, Route 1, Greenfield until recently the owner of Ada's Place, a tavern in Greenfield.
Mrs. Sonner, the wife of Joe Sonner, apparently lost control of her southbound 1956 car as it rounded a curve just this side of the county line. Sheriff Orland Hays said she was apparently thrown from the car and crushed beneath it as it rolled into a ditch.
She suffered a crushed chest, fractured jaw and other injuries. All the windshield glass was missing and shattered in several windows was shattered.
The sheriff's office had to call for a tractor to lift the auto from Mrs. Sonner's body.
The fatality was the fifth in Fayette County this year. The last previous fatal auto accident occurred March 18, when Neil Adams Lewis, 20, Dayton, died as a result of injuries sustained when his car hit the end of a bridge on the Middle Jamestown Rd.
Mrs. Sonner sold her tavern in Greenfield the week of July 4, and

Deaf Mute Sought In Florida Slaying

GAINESVILLE, Fla. — Alachua County officials today continued their search for a deaf mute charged with the murder of a prosecuting attorney's pretty wife.
Meanwhile guards were placed about the homes of persons connected with prosecuting the hunt for a man on a minor charge two months ago.
The body of Mrs. Marilyn Fagan, 32, mother of three, was found by her husband, Osee, in front of their suburban home early Friday. A single .32 caliber bullet had pierced her heart.
County Judge H. H. McDonald issued the murder warrant for Phil Singer, 41. The FBI entered the hunt after a federal charge of unlawful flight to avoid prosecution was filed.
Guards were placed about the homes of five persons connected with a trespassing prosecution against Singer or involved in a recent divorce his wife obtained.
Singer is a former maintenance man at the Gainesville Golf and Country Club. He was arrested April 11 for trespassing at the club.
Singer was prosecuted by Fagan and convicted in county court. He was sentenced to 15 days in jail and fined \$100. He was released June 22.
Fagan found his wife's body when he returned home. He had been to choir practice and later

worked in his office until midnight.
BUENOS AIRES, Argentina — The revolutionaries who helped oust Juan D. Peron are going to tear down the presidential mansion where he lives in splendor.
Provisional President Pedro Aramburu's regime says it is run down and would require more than \$56,000 in repairs.
MANILA — Antonio Ferrer shot a hawk that had been preying on his chickens. When he picked up the wounded bird, it revived and clawed him on the face. Ferrer struck back, using his rifle as a club. The weapon discharged. Ferrer died of a bullet wound.

ESSEN, Germany — Winds with gusts up to 75 miles an hour battered the Ruhr valley and Rhineland in a brief storm today.
Near Paderborn, a 120-foot-high chimney toppled, killing two workers and injuring two.
In Essen, a man was blown to death from the scaffolding of a house under construction.
RANGOON, Burma — Unusually reliable sources said today Red Chinese forces have made a third incursion into northern Burma and fortified positions near a Burmese military police garrison.
These sources said it put Red troops 42 miles from Myitkina, capital of Kachin state and a Burmese army brigade headquarters. Burma's government neither confirmed nor denied the story.

Arabian Nights Wedding Hitches Florida Camels

MIAMI, Fla. — Crandon Park Zoo's newlywed camels, settled down today in the wake of nuptials that smacked of the Arabian Nights.
It seemed unlikely that skittish Cecil and sultry Cecelia could help ruminating over the human hijinks that made them the principals of a high style wedding Friday.
The knot was tied by a burr-nosed sheik at a camel-pen altar while an organ pealed out airs appropriate to the wedding of the zoo's eight-year-old bachelor and the five-year-old fiancée imported for him from Australia.
While 3,000 guests watched, Cecil and Cecelia sealed their vows with a foamy kiss.

Dr. Kinsey Dies In Bloomington

BLOOMINGTON, Ind. — Dr. Alfred C. Kinsey, 62-year-old biologist who won fame for his books on human sexual behavior, died here this morning after a brief illness. He had been in a coma from a heart ailment and pneumonia.
Ailing for the last six months, he had been in and out of hospitals in Indianapolis and Bloomington, and his research work had been sharply curtailed.
Kinsey was virtually unknown outside restricted zoological circles until his book, "Sexual Behavior in the Human Male," became a surprise best seller in 1948. It was followed by a book on female sex behavior in 1953.

Ohio Pilot Killed In Hawaii Crash

HONOLULU — Maj. Victor A. Thielborn, 39, husband of the former Edna N. Claypool, Columbus Grove, O., was one of two Air Force pilots killed Friday when their T33 jet training plane crashed at Barbers Point Naval Air Station.
The other airman killed was Maj. William R. Utt Jr., 38, Kansas City, Mo.
The Air Force said the plane flamed out on an instrument landing and crashed into two other aircraft parked off the runway.

Bombers Take Off From Lockbourne In Six-Day Test

COLUMBUS (AP)—Thirty-two jet bombers took off from nearby Lockbourne Air Force Base Friday night to launch the Strategic Air Command's six-day "world series of bombing."

Richmond, Va., Springfield, Mass., and Montreal, Que., were the target cities in the eighth annual contest in which the aircraft send out radar impulses instead of real bombs. The accuracy of each "bombing run" is determined by ground units which receive the impulses.

In all, 66 B47 Stratojets and their reconnaissance counterparts, RB47s, will fly out of Lockbourne—defending champion in the contest—and four jet B52s and 16 B-36s will fly out of Loring AFB, Limestone, Me.

Arabian Nights Wedding Hitches Florida Camels

MIAMI, Fla. (AP)—Crandon Park Zoo's newlywed camels, settled down today in the wake of nuptials that smacked of the Arabian Nights.

It seemed unlikely that skittish Cecil and sultry Cecelia could help ruminating over the human hijinks that made them the principals of a high-style wedding Friday.

The knot was tied by a burr-nosed sheik at a camel-pen altar while an organ pealed out airs appropriate to the wedding of the zoo's eight-year-old bachelor and the five-year-old fiancée imported for him from Australia.

While 3,000 guests watched, Cecil and Cecelia sealed their vows with a foamy kiss.

Dr. Kinsey Dies In Bloomington

BLOOMINGTON, Ind. (AP)—Dr. Alfred C. Kinsey, 62-year-old biologist who won fame for his books on human sexual behavior, died here this morning after a brief illness. He had been in a coma from a heart ailment and pneumonia.

Ailing for the last six months, he had been in and out of hospitals in Indianapolis and Bloomington, and his research work had been sharply curtailed.

Kinsey was virtually unknown outside restricted zoological circles until his book, "Sexual Behavior in the Human Male," became a surprise best seller in 1948. It was followed by a book on female sex behavior in 1953.

Tree Population In Buckeye State Shows Increase

Big Gain Seen As Result of More State Help

COLUMBUS — Ohio's tree population has increased steadily during the last 10 years.

Citing figures from a recent forest survey by the Central States Forest Experiment station, F. W. Dean, Ohio State University extension forester, says Ohio has approximately 5,396,000 acres of commercial forest land, nearly 2 million acres more than in 1944.

Less than half the commercial forest land in Ohio is classified as sawtimber or stands containing at least 1,500 board feet per acre, he says. The rest is dominated by trees from pole to cordwood size. Of the sawtimber volume, Dean points out, less than 20 percent is high quality logs suitable for veneer and grade lumber. Eighty percent is suitable for ties, industrial lumber and local use.

Gross volume of standing sawtimber is nearly 14 1/2 billion feet. This is an average of about 2,600 board feet per acre and ranks high among other states in the Central States hardwood region, according to Dean.

Ohio's annual sawtimber growth is exceeding cut by 476 million board feet, Dean points out, but older growth sawlogs, 20 inches or more in diameter, are being depleted faster than they are being replaced.

Future lumber in Ohio, says sawlogs; increased growth per acre will continue, and there will be a sharp trend toward new industries using chemical wood charcoal and pulpwood.

Whole Family Can Enjoy Meals When Served Out Doors

The whole family can get together for a good time when meals are cooked picnic-style in summer weather say Irene Netz, nutrition specialist and Vera Barnett, extension family life specialist at Ohio State University.

Outdoor eating is fun for the children as well as the grown-ups in the family. Out-of-doors meals fit into the casual manner of summer living, say the home economists.

Teenagers as well as Mother's and Father's friends and even Grandma and Grandpa will enjoy being a part of the group. Food tastes good when it's prepared and eaten at a family get-together.

Miss Netz and Mrs. Barnett explain that "togetherness" within the family group is promoted when family members share the responsibilities of building the fire, cooking the food, and setting the table.

Pet Groundhog Is Affectionate, Wise

JERSEYVILLE Ill. — Oscar, the female groundhog, is as smart as an alarm clock. Promptly at 5 a. m. she jumps into the bed of Mr. and Mrs. Robert Crockett and awakens them.

Oscar has been a lovable groundhog, learning to whistle for a nursing bottle when she was cared for while a baby.

But her plush apartment residency is coming to an end. She chews on the furniture. She just can't stay away from the chair legs.

Oscar had best look alert when she's put out on a farm for there's a 25 cent bounty in Jersey County on the head of groundhogs.

There were 26,800 wells drilled in 1945, about 57,000 drilled in 1955.

A Farmer's Note Book

By THOMAS E. BERRY
FAYETTE COUNTY FAIR

"I went to the animal fair. The birds and the beasts were there;

A big baboon, by the light of the moon,
Was combing his shiny hair."

This is a poem I recalled as I recently entered the annual Fayette County fairgrounds at Washington C. H., Ohio. I didn't see the baboon but I surely saw a lot of birds and beasts and they were all good ones too. I was especially interested in the 4-H beef club exhibit, with 70 entries of Hereford, Angus and Shorthorns, well finished and well groomed and bedded down comfortably for the large crowd about due to see them.

Mary Cook of Washington C. H. R. D. 1, showed me her finished steer that weighed 865 pounds at 15 months; it was as smooth as an egg with well covered sides and ribs and a conformation that was almost ideal. She was also displaying market lambs; David Cook, her brother, had the grand champion in market lambs. Many other fine young people were near their finished beef animals and anxious and willing to answer any questions about how they were fed and managed.

"4-H Club work is surely good for the livestock interests of any community, but it is of most value to our fine boys and girls," I said to Mrs. Berry, who was seeing the fair with me, and she agreed with me, for you develop an interest in good livestock, and a fondness for domestic animals that is of great value to you all your life.

You could write a book on the Fayette County fair and not begin to describe it in detail. One must visit a county fair and experience seeing the exhibits, livestock shows etc., to really appreciate it and to get the most benefit from it.

One of the big things about a county fair like this one at Washington C. H. is that it brings people of the whole county together once a year, for a good social time and gives them many opportunities to exchange ideas with neighbors and friends.

Congratulation folks on the fine fair you had this year and continue success to you.

FULL MEASURE BEANS

This is a bunch bean that grows in clusters and is a continuous yielder. Mrs. Jennie Kier, Hillsboro RFD 2, says, "I sometimes have difficulty in buying this variety of beans, but it always pays me to take time to get them, in preference to any other bean."

Mrs. Kier likes to plant her beans just as early in the spring as she can. She put them out May 15th this year, and when I called, the last week of July they were still yielding heavily.

Spraying with Rotenone about once a week keeps them free from bean beetles and other insects.

COMBINING TIMOTHY SEED

This is being done in a big way as this is written. The seed crop is good too, but it is hard to find time between showers to get it combined.

Timothy, at one time about a decade ago, got a "black eye." It was supposed to be very hard on the ground, for it is a liberal feeder. We know now that it is one of our very best pastures and hay grasses and certainly has a very important place in grass and hay mixtures in southern Ohio.

IOWA 939 HYBRID CORN

Minor Grooms, of eastern Highland County, reports planting this hybrid corn several years ago on July 4, and getting a very good crop.

He planted a field this year the last week of June and it is tasseling as this is written. This is one of our very best varieties of hybrid corn, for southern Ohio.

Wheat Acreage Reserve Program For 1957 Outlined by ASC Office

Any producer who has a regular wheat acreage allotment may take part in the Soil Bank's Acreage Reserve program for the 1957 winter wheat crop, Mrs. Fred Shoop, office manager of the Fayette County Agricultural Stabilization and Conservation Committee said Friday.

Payments under the program will be made for reducing the acreage of winter wheat below the amount of the allotment, designated in a written agreement a specified part of the allotment acreage as acreage to be "reserved" from production. Land so designated may not be cropped or grazed for the period of the agreement.

The rate of payment for wheat acreage placed in the Acreage Reserve for Fayette County is \$1.23 per bushel. The amount of the payment will be based on the normal yield for the farm or the normal yield for the designated acreage, whichever is smaller.

The tract or tracts constituting the acreage reserve must have been devoted to the production of the commodity during one or more of the years 1951 through 1955, inclusive. The county committee shall have the right to reject the designation of tracts which are of such size or shape as to make it impracticable to determine performance of the agreement.

THE ACREAGE reserve must be signed not only by the farm oper-

ator, but also — if the operator is a share-tenant — by each person who as owner or landlord has control of the Acreage Reserve land or who is to receive compensation under the agreement. Provision is made for properly protecting the interests of tenants and sharecroppers under the program.

Farmers may designate as much as 50 per cent of their allotment or 50 acres, whichever is larger, but the acreage designated for the acreage reserve may not exceed the wheat allotment. The minimum acreage which the farmer may designate for the acreage reserve is 3 acres or the wheat allotment, whichever is smaller.

September 21 is the deadline for signing agreements to place 1957-crop acreage under the Soil Bank's Acreage Reserve. The sign-up will take place just as soon as the contracts are received in the county ASC office, which should be within the next two weeks. It will be announced just as soon as received.

The sign-up will be on a first come, first served basis.

Each county will be given an allocation to cover their sign-ups. In the event the total sign-up exceeds the allocation, the late signers will not receive benefits.

BY PRODUCING less than their "allotted" acres of wheat, farmers will earn payments to offset any loss of net income resulting from lower volumes of production. At the same time, they will be helping to reduce the accumulated surplus which is bearing down on market prices. The great interest shown in the 1956 acreage reserve program, even though it was not available until very late in the planting season, shows that farmers are aware of the need and the opportunity to take constructive action in striking at the basic surplus problem.

Mrs. Shoop said. Through the Soil Bank, farmers can make needed production adjustments, cut the surplus, and strengthen their market position, she said.

The other phase of the Soil Bank is the Conservation Reserve Program. This program will be available for 1956 to farmers who are in a position to comply with its provisions and who enter contracts with the department on or before Oct. 15. It also is available up to March 15, 1957, to farmers interested in contracts beginning in 1957. "We do not have all the program details on this program yet, but should have them in the next two weeks," Mrs. Shoop said.

"TASTE OUR MILK"

This is one of the very best slogans that I've seen for selling milk. It is used by the firm of James C. Patton, Hillsboro, Ohio RFD in northern Highland County. He has a very unusual method of marketing milk — selling the entire output of a large registered herd of Holsteins, by putting it up in jugs and selling it in his retail store in Hillsboro. All you need to do is to use the suggestion in the slogan and you'll come back for more milk.

Food-Buying Tips Available At State Fair

COLUMBUS — A team of Ohio State University personnel offers State Fair visitors food shopping tips in a series of demonstrations scheduled in the Arts and Crafts building on the State Fairgrounds here. The fair is set for Aug. 24 through 31.

The demonstrations, held daily except Sunday, features discussions on such topics as "Buying Wisely," "Selecting Quality Foods," and "Handling and Using Foods at Home."

Fair visitors will see colored slides and various food products in connection with the demonstrations, along with a display of Agricultural Extension Service bulletins on food buying and preparation. Judging of canned and frozen food exhibits also will be a part of the program.

Members of the university team staging the demonstrations are Wilbur A. Gould, associate professor of horticulture; Olive W. Parrish and Chester E. Swank, extension specialists in consumer food marketing, and Theodore W. Leed and Richard L. Bere, extension specialists in food merchandising.

Glenmary Missioners Adopt Soil Conservation Program

HAMILTON — Glenmary Missioners, of Glendale, near Cincinnati, now have a farm conservation plan, according to Gene Abercrombie, Hamilton Soil Conservation District.

"These missioners are young men trained especially to do missionary work in the low-income farming sections of the southern United States. The experience they gain in helping in the farming operations is planned to help round out their training for their missionary assignment," Abercrombie states.

The district is helping missionary leaders develop a conservation program to follow on their training

plots. This plan will include proper methods and other operations' principles, according to Kenneth Millice, U. S. Soil Conservation Service, which is helping with the planning.

A very extensive tree planting program is now being carried out by the Glenmary missioners. Five thousand trees were planted this spring, and 6,000 - 7,000 are planned for next spring, with possibly more the following year. They have also proposed planting about 430 rods of multiflora rose for wildlife protection around building sites and woodland areas.

The district supervisors state they are pleased to work with this group and hope the good farming methods and conservation principles learned may be carried to the more unfortunate people who may help.

Tree Population In Buckeye State Shows Increase

Big Gain Seen As Result of More State Help

COLUMBUS — Ohio's tree population has increased steadily during the last 10 years.

Citing figures from a recent forest survey by the Central States Forest Experiment station, F. W. Dean, Ohio State University extension forester, says Ohio has approximately 5,396,000 acres of commercial forest land, nearly 2 million acres more than in 1944.

Less than half the commercial forest land in Ohio is classified as sawtimber or stands containing at least 1,500 board feet per acre, he says. Eighty percent is suitable for ties, industrial lumber and local use.

Gross volume of standing sawtimber is nearly 14½ billion feet. This is an average of about 2,600 board feet per acre and ranks high among other states in the Central States hardwood region, according to Dean.

Ohio's annual sawtimber growth is exceeding cut by 476 million board feet, Dean points out, but older growth sawlogs, 20 inches or more in diameter, are being depleted faster than they are being replaced.

Future lumber in Ohio, says sawlogs; increased growth per acre will continue, and there will be a sharp trend toward new industries using chemical wood charcoal and pulpwood.

Wheat Acreage Reserve Program For 1957 Outlined by ASC Office

Any producer who has a regular wheat acreage allotment may take part in the Soil Bank's Acreage Reserve program for the 1957 winter wheat crop, Mrs. Fred Shoop, office manager of the Fayette County Agricultural Stabilization and Conservation Committee said Friday.

Payments under the program will be made for reducing the acreage of winter wheat below the amount of the allotment, designating in a written agreement a specified part of the allotment acreage as acreage to be "reserved" from production. Land so designated may not be cropped or grazed for the period of the agreement.

The rate of payment for wheat acreage placed in the Acreage Reserve for Fayette County is \$1.23 per bushel. The amount of the payment will be based on the normal yield for the farm or the normal yield for the designated acreage, whichever is smaller.

The tract or tracts constituting the acreage reserve must have been devoted to the production of the commodity during one or more of the years 1951 through 1955, inclusive. The county committee shall have the right to reject the designation of tracts which are of such size or shape as to make it impracticable to determine performance of the agreement.

THE ACREAGE reserve must be signed not only by the farm operator, but also — if the operator is a share-tenant — by each person who as owner or landlord has control of the Acreage Reserve land or who is to receive compensation under the agreement. Provision is made for properly protecting the interests of tenants and sharecroppers under the program.

Farmers may designate as much as 50 per cent of their allotment or 50 acres, whichever is larger, but the acreage designated for the acreage reserve may not exceed the wheat allotment. The minimum acreage which the farmer may designate for the acreage reserve is 3 acres or the wheat allotment, whichever is smaller.

September 21 is the deadline for signing agreements to place 1957 crop acreage under the Soil Bank's Acreage Reserve. The sign-up will take place just as soon as the contracts are received in the county ASC office, which should be within the next two weeks. It will be announced just as soon as received.

The sign-up will be on a first come, first served basis.

Each county will be given an allocation to cover their sign-ups. In the event the total sign-up exceeds the allocation, the late signers will not receive benefits.

BY PRODUCING less than their "allotted" acres of wheat, farmers will earn payments to offset any loss of net income resulting from lower volumes of production. At the same time, they will be helping to reduce the accumulated surplus which is bearing down on market prices. The great interest shown in the 1956 acreage reserve program, even though it was not available until very late in the planting season, shows that farmers are aware of the need and the opportunity to take constructive action in striking at the basic surplus problem.

Mrs. Shoop said. Through the Soil Bank, farmers can make needed production adjustments, cut the surplus, and strengthen their market position, she said.

The other phase of the Soil Bank is the Conservation Reserve Program. This program will be available for 1956 to farmers who are in a position to comply with its provisions and who enter contracts with the department on or before Oct. 15. It also is available up to March 15, 1957, to farmers interested in contracts beginning in 1957. "We do not have all the program details on this program yet, but should have them in the next two weeks," Mrs. Shoop said.

It was pointed out that 1956 Acreage Reserve regulations are amended to extend final disposal date of crops on designated acreage reserve from Aug. 3 through Aug. 31, 1956. If the crop on designated acreage is not disposed of by such date, no payments will be made. If the crop is harvested from designated acreage reserve or grazed, no payments will be made and the producer will be subject to 50 per cent penalty. Producers will not be allowed to terminate agreements.

For a Profit Finish... START PIGS FAST with PURINA'S "FAST-START" TWINS

To help you grow and wean heavy pigs, famed Purina Pig Starters now has a "twin" . . . Purina Baby Pig Chow. This brand-new member of the Purina line comes to you after five years of development work on more than 200 litters of pigs at the Purina Research Farm. It's super-palatable . . . tempts pigs to start eating and gaining early, has just the growth boosters young pigs need. Feed one 50-lb. bag per litter, then switch to Purina Pig Starter.

Time is money to the hog man!

Last year was a good example of how important it is to start pigs fast. Hogs that hit the early market brought up to \$5.00 per cwt. more. The chart below shows how important it is to wean heavy pigs.

TIME SAVED BY WEANING HEAVY PIGS

Weaning Weight	Time to Reach 200-225 lb. Market Weight
25-30 lbs.	8½ Months
30-40 lbs.	6 Months
40-50 lbs.	5½ Months
50-60 lbs.	5 Months

GET HOGS TO MARKET early when prices are usually best, save grain, time, labor. Follow Purina's Hog Profit plan and hurry 'em to market.

Mass Communication and Politics Today

Regardless of an occasional exception when some speaker appears to feel that he is making an unusual appeal by a wild-eyed, spread eagle type of so-called oratory, most observers will agree that national political conventions of our major parties are being conducted along better disciplined lines.

The appeal today is more from the angle of simple logic, not from the loud braying and name-calling of some speaker who regards excessive noise as a distinct asset in winning votes.

Electronics, especially television, to a considerable extent, has been a factor in this improvement.

For example, the medium voiced addresses of such speakers as President Eisenhower and his opponent, Adlai Stevenson, or such men as former president, Herbert Hoover and Gov. Arthur Langlie of the state of Washington, in our national conventions definitely seemed to be more impressive than apparent abuses of discretion from such a speaker as Gov. Clements of Tennessee.

Science has taken a long step in providing a far greater audience for the conventions and political leaders have recognized

the necessity of a toning down process in what goes on in convention halls.

Whatever else may be said for and against the mass communication media, there is no disputing the fact that they have materially enhanced the workings of democracy. A century ago the telegraph imposed its reforms on politics. These were the days when candidates for office could promise one thing in one county and the exact opposite in the next, with no fear of being tripped up before elections. Telegraphic communication changed much of that and today's great press, television and radio facilities permit the public to keep a watchful eye on activities in politics.

The development and growth of mass communication in our country has brought a corresponding development in the processes of self-government.

We sometimes hear of dangers of too much technology, of over-mechanization and there are people who express fear of this. However it would appear that technological advances in communication are contributing greatly to the broadening and the maturing of the political system of our nation.

Letters To Editor

Editor, The Record - Herald: The Rural Parents wish to point out the methods used by County Superintendent W. J. Hilty in glossing over his position as to his recent raise in salary.

Thursday's Record - Herald quoted the State Examiner as reporting the following paragraph concerning the County Board minutes:

"The minutes stated that it was recalled by members of the board that a verbal agreement had been reached by the board earlier that an increase effective Jan. 1, 1956, would be considered at the time a new contract could be considered."

Mr. Hilty was then quoted as having said he was not aware of the board's verbal agreement at the time.

Since Mr. Hilty's official capacity of Clerk of the board makes him an integral part of that board and the board meets in his office does it sound reasonable that Mr. Hilty was unaware of ANY agreements they might make, verbal or otherwise? As the strong guiding hand and "idea man" of our County Board it appears he is trying to shift the blame to individual County Board members for the violation cited by the State Examiner.

"A board of education has no authority to make verbal agreements or make retroactive pay adjustments."

In an attempt to throw up a smoke screen to obscure the full truth relative to the dissolution of the Fayette County Citizens Committee organized in August 1954, Mr. Hilty is quoted by the Record - Herald as saying "the committee has ceased to exist because their job was completed." Actually the Citizens Committee was outlawed effective October 5, 1955 by the State Legislature who revised the code to include representatives from all school districts in the counties of Ohio.

It is for the purpose of forming this new Citizens Committee, as is required by the law of Ohio, that a suit was filed against Mr. Hilty, the County Board and others. The County Board failed to form such a new Citizens Committee because it would have included representatives of the city as well as the rural areas. The law of the State of Ohio was ignored because of personal prejudice on the part of county school officials. Bad will is worse than ignorance. This letter is an effort on the part of the RPA to present in the spirit of good will the facts.

State Fair To Pick Queen of FFA Today

COLUMBUS, Ohio (AP)—A youth talent show, the first of five harness racing programs and the crowning of the queen of the Ohio Future Farmers of America are among the features of today's Ohio State Fair.

The 102nd annual fair opened Friday with an estimated record attendance of 100,000.

First champion crowned in the livestock events was a 15-year-old Meigs County youth, George Miller of Middleport, whose 10-over-ready "Chickie of Tomorrow" entries won the blue ribbon. The chickens were sold at auction by Gov. Frank J. Lausche for \$3.50 a pound.

Louis Etgen Jr., 18-year-old Lima area youth, won the tractor rodeo contest by edging Larry Kemmer, 17, of Rt. 1, Lancaster, by a single point.

Friday's fair was highlighted by the dedication of the new million-dollar Youth Center. At the Youth Day ceremony were Gov. Lausche, singing cowboy Roy Rogers, and about 3,000 spectators.

After Lausche cut the ribbon, officially opening the fair, the first person to pay admission was a visitor to this country who was seeing this type of spectacle for the first time in his life. He was Robert Schafer of Hanau, Germany, a guest of his son-in-law, John Justus, Rt. 1, Stoutsville.

Schafer had plenty to see. Exhibits ranged from military weapons to thousands of farm animals. Also on tap for today are the fat barrow and lamb sales, the continuation of livestock judging, two more grandstand shows by the Rogers troupe and the appearance of the Art Mooney Orchestra and singers Pat Boone and Polly Bergen.

Diet and Health

Keep Medicine Chest in Readiness

By HERMAN N. BUNDESEN

Accidents and illness occur in every home. Are you prepared to aid a stricken member of your family even if he's suffered only a minor scratch or cut?

Unfortunately, many homes don't have the proper equipment to furnish adequate first aid.

You owe it to your family to be prepared. Your medicine cabinet and first aid kit should contain the following articles recommended by the American Red Cross.

Individual Packages

At least a dozen 1-inch compresses on adhesive in individual packages. The same number of 3 inch by 3 inch sterile gauze squares in individual packages.

Additional sterile bandage compresses of assorted sizes, all in individual packages. A roll of one-half inch adhesive tape.

Burn ointment.
Calamine lotion, epsom salts, oil of cloves, aromatic spirits of ammonia and some bicarbonate of soda.

Rubber Stopper

If you buy spirits of ammonia in a bottle, be sure it has a rubber stopper. Ordinary cork will soon rot.

Your home first aid equipment should also include a hot water bag and an ice bag. Allow either to dry thoroughly before putting it away after use. Rubber bags should be dusted with talcum powder before being stored away.

You should have a 3-inch splinter forceps for removing splinters and the like and, of course, a pair of scissors.

Some 1 and 2-inch roller bandages might come in handy, as will an inelastic tourniquet.

Wire and Splints

Although broken bones, as any other serious injury, require immediate attention of a doctor, you might have need for some wire or thin board splints.

Castor oil or mineral oil for use in emergency treatment of the eyes can be kept on hand in a small tube.

It won't do you much good to have all these things if they are

scattered throughout the house. Keep them all together so you'll be able to find them when you need them.

QUESTION AND ANSWER

T. E. S.: My baby has a discharge from the navel. What could be the cause?

Answer: It may be some chronic infection present which has failed to clear up, or an abscess of the navel.

Resigns State Board Post in Job Hassle

CLEVELAND (AP) — H. Horton Hampton said Friday he has resigned as a member of the Ohio Development and Publicity Commission because four of the commission's six members hired a new executive secretary without asking him about it.

The secretary, Prentiss Mooney, now executive director of the Missouri Division of Resources and Development, is to take over for Miss Rhea McCarthy Sept. 15.

"Understand that I do not oppose Mooney," said Hampton, vice president of the Nickel Plate Road. "I don't know anything about him."

"But I feel that in a case of such an appointment every member of the commission should have been given the opportunity to interview the person under consideration. And I feel further that we surely should have been able to find someone in Ohio."

Hampton, on the commission since 1940, said the decision to hire Mooney was made July 8 at a meeting attended by Dwight Hatcher, Ellsworth F. Ireland, Mark Templeton and Chairman Warren S. Weiant Jr.

Hampton and James W. Rogers, the other member who did not go to the meeting, said no one told them the others were going to hire a new secretary.

In Columbus Friday, Gov. Frank J. Lausche said he was asking Hampton to continue in his post "because his services are vitally needed." The governor said he would ask the commission to review the entire matter.

Mass Communication and Politics Today

Regardless of an occasional exception when some speaker appears to feel that he is making an unusual appeal by a wild-eyed, spread eagle type of so-called oratory, most observers will agree that national political conventions of our major parties are being conducted along better disciplined lines.

The appeal today is more from the angle of simple logic, not from the loud braying and name-calling of some speaker who regards excessive noise as a distinct asset in winning votes.

Electronics, especially television, to a considerable extent, has been a factor in this improvement.

For example, the medium voiced addresses of such speakers as President Eisenhower and his opponent, Adlai Stevenson, or such men as former president, Herbert Hoover and Gov. Arthur L. Hays Sulzberger, in our national conventions definitely seemed to be more impressive than apparent abuses of discretion from such a speaker as Gov. Clements of Tennessee.

Science has taken a long step in providing a far greater audience for the conventions and political leaders have recognized

the necessity of a toning down process in what goes on in convention halls.

Whatever else may be said for and against the mass communication media, there is no disputing the fact that they have materially enhanced the workings of democracy. A century ago the telegraph imposed its reforms on politics. These were the days when candidates for office could promise one thing in one county and the exact opposite in the next, with no fear of being tripped up before elections. Telegraphic communication changed much of that and today's great press, television and radio facilities permit the public to keep a watchful eye on activities in politics.

The development and growth of mass communication in our country has brought a corresponding development in the processes of self-government.

We sometimes hear of dangers of too much technology, of over-mechanization and there are people who express fear of this. However it would appear that technological advances in communication are contributing greatly to the broadening and the maturing of the political system of our nation.

State Fair To Pick Queen of FFA Today

COLUMBUS, Ohio (AP)—A youth talent show, the first of five harness racing programs and the crowning of the queen of the Ohio Future Farmers of America are among the features of today's Ohio State Fair.

The 102nd annual fair opened Friday with an estimated record attendance of 100,000.

First champion crowned in the livestock events was a 15-year-old Meigs County youth, George Miller of Middleport, whose 10-oven-ready "Chickie of Tomorrow" entries won the blue ribbon. The chickens were sold at auction by Gov. Frank J. Lausche for \$3.50 a pound.

Louis Etgen Jr., 18-year-old Lima area youth, won the tractor rodeo contest by edging Larry Kemmer, 17, of Rt. 1, Lancaster, by a single point.

Friday's fair was highlighted by the dedication of the new million-dollar Youth Center at the Youth Day ceremony were Gov. Lausche, singing cowboy Roy Rogers, and about 3,000 spectators.

After Lausche cut the ribbon, officially opening the fair the first person to pay admission was a visitor to this country who was seeing this type of spectacle for the first time in his life. He was Robert Schaefer of Hanau, Germany, a guest of his son-in-law, John Justus, Rt. 1, Stoutsville.

Schaefer had plenty to see. Exhibits ranged from military weapons to thousands of farm animals. Also on tap for today are the fat barrow and lamb sales, the continuation of livestock judging, two more grandstand shows by the Rogers troupe and the appearance of the Art Mooney Orchestra and singers Pat Boone and Polly Bergen.

Mr. Hilty was then quoted as having said he was not aware of the board's verbal agreement at the time.

Since Mr. Hilty's official capacity of Clerk of the board makes him an integral part of that board and the board meets in his office does it sound reasonable that Mr. Hilty was unaware of ANY agreements they might make, verbal or otherwise? As the strong guiding hand and "idea man" of our County Board it appears he is trying to shift the blame to individual County Board members for the violation cited by the State Examiner.

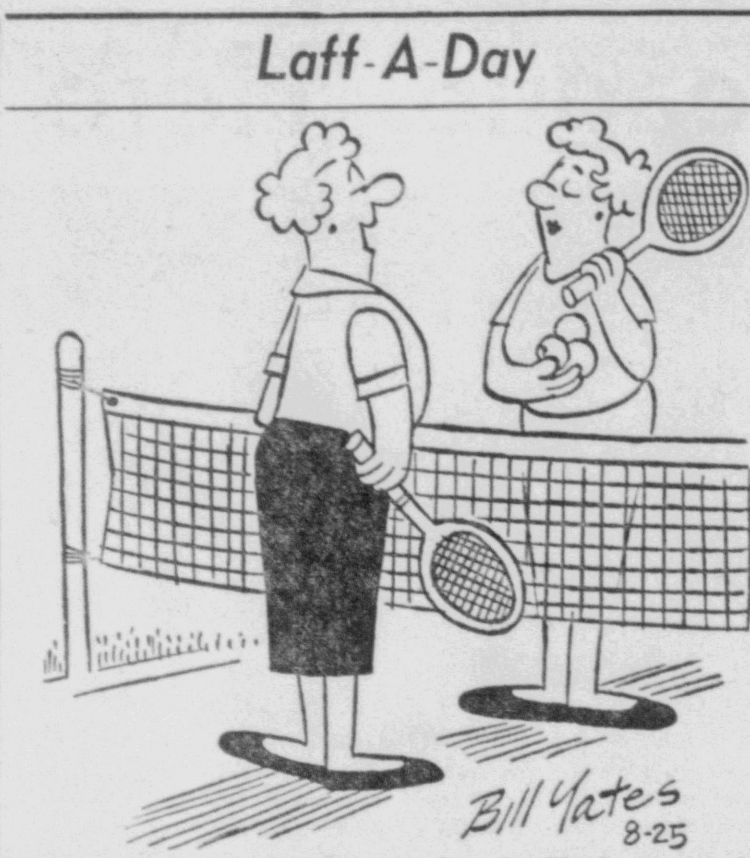

"A board of education has no authority to make verbal agreements or make retroactive pay adjustments."

In an attempt to throw up a smoke screen to obscure the full truth relative to the dissolution of the Fayette County Citizens Committee organized in August 1954, Mr. Hilty is quoted by the Record-Herald as saying "the committee has ceased to exist because their job was completed." Actually the Citizens Committee was outlawed effective October 5, 1955 by the State Legislature who revised the code to include representatives from all school districts in the counties of Ohio.

It is for the purpose of forming this new Citizens Committee, as is required by the law of Ohio, that a suit was filed against Mr. Hilty, the County Board and others. The County Board failed to form such a new Citizens Committee because it would have included representatives of the city as well as the rural areas. The law of the State of Ohio was ignored because of personal prejudice on the part of county school officials. Bad will is worse than ignorance. This letter is an effort on the part of the RPA to present in the spirit of good will the facts.

Diet and Health

By HERMAN N. BUNDESEN

Accidents and illness occur in every home. Are you prepared to aid a stricken member of your family even if he's suffered only a minor scratch or cut?

Unfortunately, many homes don't have the proper equipment to furnish adequate first aid.

You owe it to your family to be prepared. Your medicine cabinet and first aid kit should contain the following articles recommended by the American Red Cross.

Individual Packages

At least a dozen 1-inch compresses on adhesive in individual packages. The same number of 3 inch by 3 inch sterile gauze squares in individual packages.

Additional sterile bandage compresses of assorted sizes, all in individual packages. A roll of one-half inch adhesive tape.

Burn ointment.
Calamine lotion, epsom salts, oil of cloves, aromatic spirits of ammonia and some bicarbonate of soda.

Rubber Stopper

If you buy spirits of ammonia in a bottle, be sure it has a rubber stopper. Ordinary cork will soon rot.

Your home first aid equipment should also include a hot water bag and an ice bag. Allow either to dry thoroughly before putting it away after use. Rubber bags should be dusted with talcum powder before being stored away.

You should have a 3-inch splinter forceps for removing splinters and the like and, of course, a pair of scissors.

Some 1 and 2-inch roller bandages might come in handy, as will an inelastic tourniquet.

Wire and Splints

Although broken bones, as any other serious injury, require immediate attention of a doctor, you might have need for some wire or thin board splints.
Castor oil or mineral oil for use in emergency treatment of the eyes can be kept on hand in a small tube.

It won't do you much good to have all these things if they are

Keep Medicine Chest in Readiness

scattered throughout the house. Keep them all together so you'll be able to find them when you need them.

QUESTION AND ANSWER

T. E. S.: My baby has a discharge from the navel. What could be the cause?

Answer: It may be some chronic infection present which has failed to clear up, or an abscess of the navel.

Resigns State Board Post in Job Hassle

CLEVELAND (AP)—Horton Hampton said Friday he has resigned as a member of the Ohio Development and Publicity Commission because four of the commission's six members hired a new executive secretary without asking him about it.

The secretary, Prentiss Mooney, now executive director of the Missouri Division of Resources and Development, is to take over for Miss Rhea McCarthy Sept. 15.

"Understand that I do not oppose Mooney," said Hampton, vice president of the Nickel Plate Road. "I don't know anything about him."

"But I feel that in a case of such an appointment every member of the commission should have been given the opportunity to interview the person under consideration. And I feel further that we surely should have been able to find someone in Ohio..."

Hampton, on the commission since 1940, said the decision to hire Mooney was made July 8 at a meeting attended by Dwight Hatcher, Ellsworth F. Ireland, Mark Templeton and Chairman Warren S. Weiland Jr.

Hampton and James W. Rogers, the other member who did not go to the meeting, said no one told them the others were going to hire a new secretary.

In Columbus Friday, Gov. Frank J. Lausche said he was asking Hampton to continue in his post "because his services are vitally needed." The governor said he would ask the commission to review the entire matter.

Simmons-Ellars Vows Exchanged

The Bookwalter Christian Union Church was the scene of the wedding of Miss Leona May Simmons and Mr. Franklin D. Ellars on Saturday, Aug. 18 at 7:30 p. m. with the bride's father, the Rev. Charles Simmons of Jeffersonville.

The bride is the daughter of Rev. and Mrs. Charles Simmons of Jeffersonville and Mr. and Mrs. Joseph Ellars also of Jeffersonville.

The ceremony was preceded by nuptial music presented by Miss Sylvia Archer and Miss Donna Dawes accompanied on the piano by Miss Betty Archer. Their selections were "Because," "I Love You Truly," "The Lord's Prayer" and the wedding marches.

The bride given in marriage by her brother, Mr. Larry Simmons, wore a gray fall street length dress with white accessories and she carried white roses and a white cushion mums atop a white Bible.

Miss Donna Simmons was maid of honor for her sister. She wore a blue dress with red accessories and her corsage was of pink carnations.

Mr. Carl N. Creamer was best man and the ushers were Mr. Richard Gordon and Mr. David Reid.

Mrs. Simmons wore for her daughter's wedding, a light blue dress with white accessories and a corsage of white cushion mums.

Mrs. Ellars wore a navy blue dress with black accessories and a corsage also of white cushion mums.

The new Mrs. Ellars is employed by the Blue Cross in Columbus and Mr. Ellars works at Borchers, also in Columbus.

After a short wedding trip the couple is residing at their home in Bookwalter.

WCTU Elects New Officers

The New Martinsburg WCTU met with Mrs. Elden Bethards Wednesday evening for the August meeting.

The president, Mrs. Bethards, opened the meeting with the reading of a poem "May I Never Be Too Busy".

Mrs. Joe McClure, a devotional leader, read the Scripture from Ecclesiastes and her theme was "Time for Everything". The group sang the hymn, "Yield Not to Temptation", and the devotionals were closed with a prayer circle.

The president conducted the business meeting and gave a report of the WCTU convention recently held at Lancaster.

The usual reports were read including a report of the work done the past year by the WCTU.

Activities for this month were: 58 cards, 34 bouquets, 24 sick calls and 14 donations.

The election of officers resulted with Mrs. Bethards, named president; Mrs. Elba Carson, vice president; Mrs. William Handley, secretary; Mrs. Edward Lee Carson, treasurer; and Mrs. McClure, devotional leader. One new member, Mrs. Fred Wing, was welcomed into the club.

The program was in charge of Mrs. McClure who opened by reading a poem "What Greater Heritage?" Nancy Lynn Carson played two piano solos "Ballet Dancer" and "Dancing Bears". Julia McClure read a poem, "Bed in Summer", and Rebecca McCoppin sang two piano solos, "Open Up Your Heart" and "You Must Open the Door". Jimmy McClure presented two piano solos, "Little Spring Song" and "Falling Leaves" to close the afternoon's program.

At the close of the meeting the hostess served delicious refreshments.

Brunners Are Hosts At Class Supper

Mr. and Mrs. Paul Brunner were hosts to the Friendship Class of the Sugar Grove Church Thursday evening with a covered dish supper.

The lawn made a lovely scene for the supper of charcoal - cooked meats and other tempting foods.

Following the supper the members assembled in the living room for the business meeting. Mr. Norman Merritt opened the meeting with a song service including the class song.

Devotionals included the reading of the 26th Psalm by Mr. Virgil Workman, a prayer led by Mr. Elden Armbrust and a reading, "There'll Be Room in Heaven", by Mrs. Virgil Workman.

Members answered the roll call by giving their favorite outdoor pastime and the usual reports were read and approved.

It was announced that Mr. Merritt will meet with members of the Maple Grove, New Martinsburg and Good Hope Churches to plan the annual get-together.

The meeting closed with prayer led by Mr. Brunner.

Mr. and Mrs. Elden Armbrust entertained with moving pictures of interesting places in Florida and other Southern states, taken by Mr. and Mrs. Virgil Workman while they were on their vacation.

The hosts served refreshments assisted by Mr. and Mrs. Workman.

The September meeting will be held at the home of Mr. and Mrs. Wesley Thatcher.

Gretchen Himmelspach To Enter Nurse School

Miss Gretchen Himmelspach, daughter of Mr. and Mrs. W. F. Himmelspach, 414 Van Deeman Ave., will be one of 97 students entering the Mt. Carmel Hospital School of Nursing, Columbus, Sept. 4.

A reception for the parents and students will be held from the hours of 2 until 4 p. m. on that day. Members of the junior class, who are the traditional "Big Sisters" will be on hand to meet their "Little Sisters".

The first week of orientation will introduce the girls to Columbus, their hospital and school of nursing and the faculty, the Student Nurse Association of Columbus, as well as to the social activities of the school in a welcoming party and talent show given in their honor.

TIFFIN — The 150 employees who walked out Thursday at the General Electric Co. motors plant returned to their jobs Friday. The workers, who said they were demonstrating against piece work rate cuts, plan to pursue the issue through the United Electrical Workers.

Shirley Booth Has Regrets About Quickie Academy Award

HOLLYWOOD — Shirley Booth leaned back in her chair beside her swimming pool and said, "I wish I hadn't won the Academy award so soon."

Not that the Oscar—for her 1952 portrayal of a frumpy hausfrau in "Come Back Little Sheba"—has done her any harm, Shirley added.

"But, I felt it came much too quickly. It was my first motion picture, you know. I always think you should work up to something," she said.

Her success on the stage with "Sheba" and subsequent plays came after many years of hard work, frustration and tears. Miss Booth, by the way, made her Broadway debut in 1925 along with a young fellow named Humphrey Bogart.

The red-haired actress is a temporary Hollywoodian while appearing in the play, "The Desk Set."

"It's a funny thing," she went on, "when success arrives in your later years, no one is envious at all. Older people hope the same lightning might strike them; the younger folks aren't a bit jealous because they know you've been working for it a long time."

Shirley, who doesn't look her 49 years, recalled a conversation with her ex-husband, Ed Gardner, creator of "Duffy's Tavern."

"Ed said, 'Shirley, people envy me my success, but they all hope

you'll make it to the top one of these days. They say, 'good ol' Shirley. She's been pluggin' away a long time.'"

"The difference was that Ed, who's really a very talented man, rose to the top so very fast."

Long-memoried radio fans might recall that Shirley played the original "Miss Duffy" on the radio for two years. She and Gardner were divorced in 1943.

CINCINNATI — Health officials reported a rarity here Friday: No polio cases at General Hospital for the first time in many summers.

Judge Orders Iron Ore Ship Unloaded

LORAIN (P)—In compliance with a federal judge's order, District 50 of the United Mine Workers Fri-
day night called men back to un-
load the 10,500-ton iron ore cargo
from the Tom M. Girdler, which
has been tied up at the Baltimore
& Ohio dock here for a week.
The mine workers had refused
to unload the vessel because it
was picketed by the Marine En-
gineers Beneficial Assn. and the
Master, Mates and Pilots Assn.,
which are on strike for recogni-
tion as bargaining agent for li-
censed personnel on the Girdler
and 57 other ore carriers.

During the tie-up, 107 empty
cars have been lined up waiting
to haul the ore to the Jones &
Laughlin Steel Corp. plant in Al-
quippa, Pa.

The Toledo, Lorain & Fairport
Dock Co. got the injunction Fri-
day from Federal Judge James
C. Connell. The judge set Sept. 4
as the date for hearing on a per-
manent injunction.

Judge Orders Iron Ore Ship Unloaded

LORAIN (P)—In compliance with a federal judge's order, District 50 of the United Mine Workers Friday night called men back to unload the 10,500-ton iron ore cargo from the Tom M. Girdler, which has been tied up at the Baltimore & Ohio dock here for a week.

The mine workers had refused to unload the vessel because it was picketed by the Marine Engineers Beneficial Assn. and the Master, Mates and Pilots Assn., which are on strike for recognition as bargaining agent for licensed personnel on the Girdler and 57 other ore carriers.

During the tie-up, 107 empty cars have been lined up waiting to haul the ore to the Jones & Laughling Steel Corp. plant in Alliquippa, Pa.

The Toledo, Lorain & Fairport Dock Co. got the injunction Friday from Federal Judge James C. Connell. The judge set Sept. 4 as the date for hearing on a permanent injunction.

Redlegs Rack Up More Home Run Marks, But Lose

Brooklyn's 6-4 Win
Keeps Dodgers Two
Games Behind Braves

By THE ASSOCIATED PRESS

It looks more and more as though Cincinnati's robust Redlegs will have to be content with a listful of home-run records while Milwaukee and Brooklyn battle for the National League pennant.

Manager Birdie Tebbetts' powerhouse slammed two more records into the books Friday night as Gus Bell poked his 25th home run and Wally Post socked his 27th. Yet the Redlegs wound up five games back of the leaders with a 6-4 loss to the second-place Dodgers, who broke up Larry Jansen's comeback magic on homers by Duke Snider and Carl Furillo.

The victory kept the world champions within two games of the first-place Braves, who combined brawn with Warren Spahn to defeat Philadelphia 6-1 as Joe Adcock and Ed Mathews homered.

Fourth-place St. Louis handed Pittsburgh a seventh straight defeat, 6-2, while the last-place New York Giants were coming within range of both the sixth-place Pirates and seventh-place Chicago by defeating the Cubs 5-4 in 11 innings.

In the American League, the New York Yankees cooled off the Chicago White Sox 2-0 behind Johnny Kucks' four-hitter that produced his 17th victory. Cleveland remained eight games behind the first-place Yankees by defeating Boston 5-3. Detroit rallied in the ninth to trim Baltimore 4-1 and Kansas City swept past Washington 8-4.

The two-run homers by Bell and Post hoisted the Redlegs into the record books with 41 home runs in 21 consecutive games. The old record for home runs in any number of consecutive games was 40, set by the Yankees in 1941 when they hit one or more in 25 consecutive games. Brooklyn had held the record for 21 games, with 36 in 1953.

Sal Maglie, Jansen's roommate when they combined for 46 victories in the Giants' little miracle pennant of 1951, gave up both Red leg homers, but won his seventh with Don Bessent's relief.

Snider's 34th homer, with two on gave him four RBIs for the game. Furillo's 17th, with one on, wrote the finish for Jansen in five innings. It was Jansen's first defeat after knocking off the Braves in his other two appearances since being brought back from the minors.

Southpaw Spahn won his fifth straight complete-game with a five-hitter, nailing his 15th victory and his 19th career triumph. Adcock's 32nd and Mathews' 30th were two-run homers that handed Robin Roberts his 15th defeat against 14 victories.

Murry Dickson, 40, six-hit the Bucs for his 11th victory. The Cards scored twice without a hit in the first inning against loser Fred Waters on two walks, a hit batsman, a wild pitch and two sacrifices.

The Giants, winning four straight now are a game back of Pittsburgh and only a half-game behind the Cubs. Willie Mays' only hit, a double, drove in the clincher.

Gil McDougald's 10th home run and an RBI double by Mickey Mantle, his lone hit, gave Kucks the decision over Jack Harshman.

The Tribe made it on a three-run homer by George Strickland and a two-run poke by Vic Wertz, his 25th, as Mike Garcia won his 10th with relief help against the Red Sox.

Bill Tuttle's home run led off Detroit's three-run ninth that broke a 1-1 tie. Billy Hoeltz (15-11) and Connie Johnson (6-8) had matched shutouts for seven innings.

Lou Skizas homered twice and Harry Simpson once for the A's who ended Pete Ramos' winning streak at eight games. Bobby Shantz won his second with 4 1-3 innings of shutout relief.

Plans Appeal of Olympics Ban

ROCK ISLAND, Ill. (P)—William Smith, U. S. Olympic wrestling champion, says he will appeal a Central AAU decision barring him from further competition.

Smith was barred by the organization earlier this week on charges of having been paid to coach at a Rock Island, Ill., high school.

Marvin I. Thomas, chairman of the registration committee investigating charges against Smith, said "Smith did not produce any credible evidence to alter the fact" he received payment as a wrestling coach during four years with the Rock Island school system.

Giants Meet Green Bay in Top Pro Tilt

By THE ASSOCIATED PRESS

The New York Giants and Green Bay Packers, both entertaining ideas of a division championship this year, meet tonight at Green Bay, Wis., in the feature of a three-game National Football League exhibition program.

Both teams looked impressive in their exhibition debuts last week—the Giants with a 28-10 victory over the Baltimore Colts and Green Bay with a 27-6 romp over Philadelphia.

Detroit plays the Chicago Cardinals at Mobile, Ala., and Baltimore and the Pittsburgh Steelers clash at Cincinnati in other warm-up games tonight.

Detroit is 1-0, having opened with a 20-15 decision over the Steelers. Baltimore has split two games while the Cards were dumped by their cross-town Chicago rivals, the Bears 31-7, in their only game.

The Bears, who expect to battle Los Angeles and Green Bay in the league's western division, made it two in a row Friday night, defeating the Eagles 28-21 before 30,011 at Philadelphia with newcomer Perry Jeter again in the hero's role.

The seatback scored two more touchdowns, including one on an 81-yard punt return that snapped a 21-21 tie in the fourth quarter.

Adrian Burk passed for the Philadelphia touchdowns, two going to John Bredecie, the big rookie end from Boston University.

At Los Angeles' Memorial Coliseum, the Rams treated 40,175 fans to a 17-7 whipping of the defending champion Cleveland Browns, the second loss for the Browns since they spanked the College All-Stars 16-0.

Drama Marks Handicap Fete At Vandalia

VANDALIA (P)—The 57th grand American Trapshoot closes today decided, but anything that happens will appear drab in comparison to Friday's windup of the sport's No. 1 event.

That was the Grand American Handicap, a 100 - target feature carrying a \$15,000 purse which attracted 2,145 shooters, the greatest entry any clay target event has ever known.

The title went to C. W. Brown, 46, of Dayton, who broke 99 of 100 from 20 yards to get into a three-way tie, then defeated his opponents in a shootoff packed with drama.

Opposing Brown in the extra heat were Durwood L. Baumgartner of Houston, Tex., and Gallipolis, Ohio, and Paul Baker, 33, from Brookville, Ohio.

Brown, Baker and Baumgartner each registered the best score of his career in getting into the shoot off. Brown winning the 25-target extra event with 23, Baker taking second with 22 and Baumgartner third with 18.

Up for decision today are the doubles championship, the Vandalia Handicap and the high overall and all-around titles.

The three top men in the Grand American were expected to split up some \$12,000 in prize money. Baumgartner said he would use his winnings to complete payments on a trailer.

Baumgartner, a traveling construction worker, was born in Kansas, lists Houston as his permanent home, registered for the shoot from Gallipolis, has been working several months at Crestline, and headed back to Houston today.

Brown Breaks Hand But Lifts Lightweight Crown

NEW ORLEANS (P)—"I had to gamble, it was the only way to win," a tired but happy Joe Brown said today, nursing a broken right hand but holding a newly won lightweight championship as balm for his wounds.

The 30-year-old ex-carpenter from New Orleans, who fashioned quick reflexes and a stinging left jab as tools of his trade, finished with a whirlwind rally in the late rounds to gain a split decision and lift Wallace (Bud) Smith's title Friday night.

Brown, the target for Smith's pursuit during most of the nationally televised 15-round, smashed the 27-year-old Cincinnati titleholder to the floor twice in the 14th round. Smith rose from the canvas weary and dazed and a target for Brown's right in the final round.

But the finishing right never came as the 9,200 fans screamed for a knockout.

"I couldn't throw it," Brown said as he squinted through marks of battle over his eyes and on his cheekbone.

"I broke the hand in the second round when I popped him on the chin," he said, recalling the right

Cubs Topple Kernels, 7 to 2; Little League Finale Saturday

The Sunshine Cubs beat the Korn Kernels 7-2 Friday night at Wilson Field in Little League play.

The Cubs got away to a smashing start in the first inning and the Kernels never caught them in the innings that followed.

It was Ben Garinger, playing his last game in the Little League who turned the trick for the Cubs.

With two men on base in the first inning, he smashed his ninth homer of the year, making the margin which the Kernels couldn't catch.

The Cubs scored three more in the second inning to make it 6-1 and put the game on ice, as Garinger, who also pitched, allowed the Kernels only two hits.

THE RESULTS of Saturday's final games hold the fate of the first four teams in the Little

Pitcher Hero To Little Leaguers

WILLIAMSPORT, Pa. (P)—A 12-year-old pitcher, second baseman and a "good man with the wood" is the toast of the Little League baseball world after clouting a 3-run homer Friday that gave his Roswell, N. M., club the 10th annual Little League World Series championship.

Tom Jordan, son of a former catcher for the Chicago White Sox and the old St. Louis Browns, hit his home run in the fourth inning to give the westerners a 3-1 win over Delaware Twp., N. J., runner-up for the second consecutive year.

After putting his club in the lead, the little right-hander took the hill with amazing poise and proceeded to strike out the next six batters in a row to end the contest with a total of 1 strike-outs.

Times Square, Diamond Hal in Chicago 'Split'

CHICAGO (AP)—New York's Diamond Hal and Ohio's Times Square split heats in the \$10,000 free for all pace at Sportsman's Park Friday night.

Diamond Hal, owned by Sol A. Camp, Shafter, Calif., won the first heat in 2:04, and Times Square, owned by Eddie Kirk, Washington Court House, Ohio, was timed in 2:02 4-5 in the final dash.

The mutual pay-off for Times Square in the second dash was \$27-60, \$12.80 and \$4.40. Angiamo returned \$21.60 and \$8.00 and Diamond paid \$2.60. Times Square was timed in 30 seconds for the first quarter with the half in 1:01.3, the third quarter in 1:33.3 and came the final quarter in 29.2.

In the first dash Scotchlight made a break going away and Times Square who was trailing had to pull up and was out of contention.

Official placings were:

Diamond Hal	1	3
Times Square	7	1
Andiamo	5	2
B'Haven	2	7
Queens Adios	3	4

Dr. The Kirk owned pacer will make his next start next Friday at DuQuoin, Ill., in a free for all pace made up of much the same list of starters.

Pitcher Hero To Little Leaguers

WILLIAMSPORT, Pa. (AP)—A 12-year-old pitcher, second baseman and a "good man with the wood" is the toast of the Little League baseball world after clouting a 3-run homer Friday that gave his Roswell, N. M., club the 10th annual Little League World Series championship.

Tom Jordan, son of a former catcher for the Chicago White Sox and the old St. Louis Browns, hit his home run in the fourth inning to give the westerners a 3-1 win over Delaware Twp., N. J., runner-up for the second consecutive year.

After putting his club in the lead, the little righthander took the hill with amazing poise and proceeded to strike out the next six batters in row to end the contest with a total of 13 strike-outs.

a vain attempt to collect \$2,000 in ransom to meet a pile of debts.

Searchers found the decomposed remains of the infant Friday in underbrush near a heavily traveled Long Island parkway a half mile north of the LaMarca home in Plainview.

"Even if the child was alive when it was placed on the ground, it may well constitute murder," said Dist. Atty. Frank Gulletta.

Under New York law a person who causes a death while committing a felony is liable for first degree murder charges, punishable by death in the electric chair. Kidnaping also carries a maximum penalty of death in the electric chair.

The parents, Morris Weinberger, 48, a prosperous drug salesman, and his wife, Betty, 32, had never given up hope through all the desperate weeks since the kidnapping that their baby was still alive. Friends said their reaction to the news was very severe. They have an older son.

LaMarca was arrested early Thursday at his home. He was tracked down after a painstaking FBI search through more than two million handwriting samples.

The ransom note bore certain handwriting quirks. FBI men finally found matching peculiarities in LaMarca's signature in federal district court records in New York City. LaMarca received a suspended sentence last year on a bootlegging charge.

ation" and of "grave provocation to the Chinese people." The broadcast charged at least 54 U. S. planes violated the area near Shanghai and the Tachen Islands Friday.

Ingersoll, commander of the 7th Fleet, dismissed the charges.

"I have no control over what the Chinese Communists say," he declared. "I can't imagine what would bother me less than what the Chinese Communists say."

THE PEIPING radio said late Thursday that Communist planes had damaged a "Chiang Kai-shek plane" about 1 a. m. Thursday over islands southeast of Shanghai. It said the damaged plane flew away toward the southeast, which would be toward Formosa.

Officials said no Nationalist Chinese planes were in the area at the time.

The Navy said the Mercator was on a routine patrol and training mission from Japan when it flashed the attack signal early Thursday. The message went out when the aircraft was 160 miles north of Formosa over international waters, the Navy said.

The message gave no details of how many planes were in the attack, their nationality or whether the Navy plane was returning fire.

Hillsboro Man Heads FBCA Feeds Division

COLUMBUS — J. A. Adams has been named manager of the feed division of the Farm Bureau Cooperative Assn., Inc. A native of Hillsboro, Adams has been manager of the co-op's farm machinery division for the past five years. Prior to that he was manager of the Highland County Farm Bureau Cooperative Assn.

Replacing Adams as manager of the farm machinery division is Gerald S. Van Winkle, Westerville, from his position as sales manager of the division, a job he has held since 1949.

Requirements to become citizens of the U. S. are waived in the case of certain veterans of the U. S. armed forces.

the canal but with an international advisory board—powerless to enforce its recommendations.

Egypt meanwhile sought to hire pilots in West Germany to guide convoys through the canal. A score or more pilots on home leave have not returned since Nasser seized the canal July 26. Others may quit if the canal remains in Egyptian hands.

The Egyptian embassy in Bonn said it had received some applications from German pilots. Egypt is also trying to hire pilots in other countries.

Several of the delegates who attended the conference — including U. S. Secretary of State Dulles and the foreign ministers of France and West Germany — saw hope that Egypt would accept the majority proposal.

But Soviet Foreign Minister Dmitri Shepilov warned of serious consequences in the middle east if the West tries to break Egypt's grip on the Suez Canal.

He said military preparations of Britain and France were "flagrant violation of the United Nations charter."

The Soviet Union seemed to be massing its propaganda forces to support a rejection from Nasser of the 18-nation international control plan. Moscow radio said the plan was "a one-sided ultimatum" backed by "the notorious policy of force."

Some top diplomatic officials in Washington were reported concerned over signs that Russia might be deliberately trying to interfere with a negotiated settlement.

Haines To Head Guard Artillery

COLUMBUS — Gov. Frank J. Lausche has advanced Col. Howard F. Haines of Columbus to brigadier general and commander of the division artillery in Ohio's 37th Infantry division.

Col. Haines will succeed Maj. Gen. Kenneth Cooper who recently took over command of the 37th. Haines served as executive officer of the division artillery.

Maj. Gen. Leo M. Kreber recently resigned as commander of the 37th, but continues as Ohio adjutant general.

Haines is senior member of H. F. Haines Associates, Columbus optometrists.

Fayette Group Eyes Pending Bypasses

A group of highway-minded Washington C. H. men conferred with Division Engineer George Alsdorf in Delaware Friday and returned with the conviction that the system of interstate routes now passing through the city will bypass it within the next few years.

That doesn't mean that the bypasses will be constructed next year—or even the next—but it's quite possible that the present

CCC Highway will pass north of Washington C. H. within the next three years.

Route 22, Route 62 and Route 35 bypasses may follow within 10 years at most.

No definite dates have been set, of course. But with a tremendous federal road program coming up, it appears definite that the interstate highways are going to be converted into four-lane limited access thoroughways in the next decade. And they will avoid urban areas wherever possible — to keep interstate traffic moving with out unnecessary hindrance and for reasons of possible military necessity in the future.

THE CCC HIGHWAY, linking Cleveland, Columbus and Cincinnati, probably will receive early consideration in the federal program which provides that the federal government will pay 90 per

cent, the states 10 per cent of construction costs.

Alsdorf told the Washington C. H. group, which represented the newly formed Fayette County Highway Committee, that no locations have been determined and no surveys made. But it's quite likely that there will be something more definite after Sept. 18 when a general state highway department programming session is scheduled.

Russ Worker In U. N. Sent Home as Spy

UNITED NATIONS, N. Y. (U—A) Soviet citizen, Viktor Ivanovich Petrov, 31, has been dropped from the U. N. secretariat staff and sent back to Moscow for trying to ferret out secret data on U. S. military planes.

The U. N. personnel office said Petrov was fired for improper conduct. The U. S. Justice Department said he had tried to get secret aircraft information from an American citizen. It added that Petrov did not succeed.

Petrov made a hasty exit from New York's Idlewild Airport Thursday with his wife and son, 3.

Petrov was the third Soviet citizen to lose his job at the U. N. because of attempted spying. He was recruited in Moscow in 1953 for the Russian language translating section of the U. N. secretariat. The job paid about \$8,000 a year.

In Washington the Justice Department said the FBI had developed information indicating Petrov had attempted to obtain national defense data from an employee of a U. S. aviation corporation.

Asst. Atty. Gen. William F. Tompkins, head of the department's internal security division, said Petrov was unsuccessful in the attempt.

The Justice Department declined to identify either the aviation company or the employee from whom Petrov sought information.

tle for control of the Senate will pivot around races in New York, Oregon, Washington and Nevada. And he didn't eliminate himself as a possible contender for the Senate seat Sen. Lehman (D-NY) is giving up.

Democratic National Chairman Paul M. Butler at the same time tore into Eisenhower's renomination acceptance speech as a "skillful blend of wishful thinking, soothing reassurances and glossing over of the failures" of the GOP administration.

Butler said the President failed to spell out the details on how he would carry out his hope for a peaceful and prosperous future. Whenever the speech dealt with any "specifics," Butler said, it was in "sharp conflict" with the Eisenhower record.

An editorial attack by "New Times," an official Soviet journal, provided a springboard for another Stevenson statement.

The publication said Stevenson is backed by "financial tycoons" and the "most reactionary racist elements" in the Democratic party.

Stevenson hailed this denunciation as proof that the Republicans were "wrong again" in alleging that the Communists are backing the Democrats. But, he said, he believes the GOP will continue to "smear the Democrats as soft on communism."

Meanwhile a steep rise in the cost of living during July threatened the Eisenhower administration with a political headache. United Auto Workers President Walter Reuther demanded a congressional inquiry to "expose exorbitant profits as the cause for inflation."

the canal but with an international advisory board—powerless to enforce its recommendations.

Egypt meanwhile sought to hire pilots in West Germany to guide convoys through the canal. A score or more pilots on home leave have not returned since Nasser seized the canal July 26. Others may quit if the canal remains in Egyptian hands.

The Egyptian embassy in Bonn said it had received some applications from German pilots. Egypt is also trying to hire pilots in other countries.

Several of the delegates who attended the conference — including U. S. Secretary of State Dulles and the foreign ministers of France and West Germany — saw hope that Egypt would accept the majority proposal.

But Soviet Foreign Minister Dimitri Shepilov warned of serious consequences in the middle east if the West tries to break Egypt's grip on the Suez Canal.

He said military preparations of Britain and France were "flagrant violation of the United Nations charter."

The Soviet Union seemed to be massing its propaganda forces to support a rejection from Nasser of the 18-nation international control plan. Moscow radio said the plan was "a one-sided ultimatum" backed by "the notorious policy of force."

Some top diplomatic officials in Washington were reported concerned over signs that Russia might be deliberately trying to interfere with a negotiated settlement.

Haines To Head Guard Artillery

COLUMBUS (AP)—Gov. Frank J. Lausche has advanced Col. Howard F. Haines of Columbus to brigadier general and commander of the division artillery in Ohio's 37th Infantry Division.

Col. Haines will succeed Maj. Gen. Kenneth Cooper who recently took over command of the 37th. Haines served as executive officer of the division artillery.

Maj. Gen. Leo M. Kreber recently resigned as commander of the 37th, but continues as Ohio adjutant general.

Haines is senior member of H. F. Haines Associates, Columbus optometrists.

Fayette Group Eyes Pending Bypasses

A group of highway-minded Washington C. H. men conferred with Division Engineer George Alsdorf in Delaware Friday and returned with the conviction that the system of interstate routes now passing through the city will bypass it within the next few years.

That doesn't mean that the bypasses will be constructed next year—or even the next—but it's quite possible that the present

CCC Highway will pass north of Washington C. H. within the next three years.

Route 22, Route 62 and Route 35 bypasses may follow within 10 years at most.

No definite dates have been set, of course. But with a tremendous federal road program coming up, it appears definite that the interstate highways are going to be converted into four-lane limited access thoroughways in the next decade. And they will avoid urban areas wherever possible — to keep interstate traffic moving with out unnecessary hindrance and for reasons of possible military necessity in the future.

THE CCC HIGHWAY, linking Cleveland, Columbus and Cincinnati, probably will receive early consideration in the federal program which provides that the federal government will pay 90 per

cent, the states 10 per cent of construction costs.

Alsdorf told the Washington C. H. group, which represented the newly formed Fayette County Highway Committee, that no locations have been determined and no surveys made. But it's quite likely that there will be something more definite after Sept. 18 when a general state highway department programming session is scheduled.

Which interstate routes will receive first consideration may be decided at that time.

Meanwhile, the new Fayette County committee, named this week by Chamber of Commerce President Tom Mark, will have an opportunity to study the bypass situation and perhaps eventually make recommendations in the interests of Fayette County communities to be affected by any major highway relocations.

THE HIGHWAY committee, which will hold its first general meeting at 4 p. m. Monday in C. of C. headquarters, is composed of Walter Morrow, chairman; Ben Norris, Charles Ferguson, City Manager James F. Parkinson, County Engineer Charles Wagner, State Representative Virgil Perrill and County Commissioner Cliff Hughes.

Parkinson, Norris, Ferguson and William Stoughton, C. of C. manager, made the trip to Delaware Friday.

Russ Worker In U. N. Sent Home as Spy

UNITED NATIONS, N. Y. (AP)—A Soviet citizen, Viktor Ivanovich Petrov, 31, has been dropped from the U. N. secretariat staff and sent back to Moscow for trying to ferret out secret data on U. S. military planes.

The U. N. personnel office said Petrov was fired for improper conduct. The U. S. Justice Department said he had tried to get secret aircraft information from an American citizen. It added that Petrov did not succeed.

Petrov made a hasty exit from New York's Idlewild Airport Thursday with his wife and son, 3.

Petrov was the third Soviet citizen to lose his job at the U. N. because of attempted spying. He was recruited in Moscow in 1953 for the Russian language translating section of the U. N. secretariat. The job paid about \$8,000 a year.

In Washington the Justice Department said the FBI had developed information indicating Petrov had attempted to obtain national defense data from an employee of a U. S. aviation corporation.

Asst. Atty. Gen. William F. Tompkins, head of the department's internal security division, said Petrov was unsuccessful in the attempt.

The Justice Department declined to identify either the aviation company or the employee from whom Petrov sought information.

Eisenhower Golfs

(Continued from Page One)

the for control of the Senate will pivot around races in New York, Oregon, Washington and Nevada. And he didn't eliminate himself as a possible contender for the Senate seat Sen. Lehman (D-NY) is giving up.

Democratic National Chairman Paul M. Butler at the same time tore into Eisenhower's renomination acceptance speech as a "skillful blend of wishful thinking, soothing reassurances and glossing over of the failures" of the GOP administration.

Butler said the President failed to spell out the details on how he would carry out his hope for a peaceful and prosperous future. Whenever the speech dealt with any "specifics," Butler said, it was in "sharp conflict" with the Eisenhower record.

An editorial attack by "New Times," an official Soviet journal, provided a springboard for another Stevenson statement.

The publication said Stevenson is backed by "financial tycoons" and the "most reactionary racist elements" in the Democratic party.

Stevenson hailed this denunciation as proof that the Republicans were "wrong again" in alleging that the Communists are backing the Democrats. But, he said, he believes the GOP will continue to "smear the Democrats as soft on communism."

Meanwhile a steep rise in the cost of living during July threatened the Eisenhower administration with a political headache. United Auto Workers President Walter Reuther demanded a congressional inquiry to "expose exorbitant profits as the cause for inflation."

Traffic Violations Charged Against 2

Donald Ray Coe, 18, 521 Washington Ave., has posted \$20 bond for appearance in municipal court on a charge of excessive noise while driving.

Mary Ellen LeMaster, 27, city, was charged with failure to stop within assured clear distance, after her car had struck a car driven by Allen D. Robinson, of Dayton, when Robinson had stopped for a traffic light at Temple and Hinde St.
